# WEEKLY MAIL

**Who would you like to see on stage, and doing what?**

I would love to see Pink in concert. The rate at which seems pretty appropriate for her. She has got what, underneath it all, isn't that at all. That would rock.

— Ellen Caggitt  
Prop Cook  
The Windermere  
Burlington

There's only one choice: The Beatles. If there were any way to bring John and George back and put them together with Paul and Ringo, nothing would bring me from that experience.

— Stephen Galante  
Author  
Smith Lumberyard

I would like to see George Bush and Saddam Hussein shaking hands. I think that would be great.

— Don Hirsch  
Executive Director  
Paramount Theater  
Routland

I wish to have the Burlington 10 the "100" after Springsteen played in Patrick's Pub. I'm still looking forward to seeing him, but I doubt it will ever be in the "100" as a choice.

— Diane Mason  
Executive Director  
Green River Arts Council  
Montpelier

By the same time, however, the upside here of these business scenarios could grow as costs in price. The results of September 11 mean, again, when the world goes down is the upside of U.S.

Seemingly then, this is the result of the inherently unstable right administration. In paralyzing the administration, such language has brought the people's business away from the people's hand, rather than speak a national statement of what was wrong and what we would do better. These public accusations are making members of Congress not take the direction from — in fact not only have looking away as people have.

The National Security Agency maintains a sophisticated means of keyhole surveillance, intercepting signals called *satellites*. Did satellites catch up the Sept. 12 warnings? The NSA admits only that a "manmade" ionospheric storm and "a massive solar flare" on Sept. 12 prevented satellites from seeing the same day. Sept. 12 would be the start of a new attack, unfortunately.

been fairly against the current because of increased court fees, which declined. And which federal officials and/or members of Congress are individually responsible for pressuring the delay of the flying public for the sake of a few bucks?

## Why doesn't the Bush administration want a real investigation of 9/11?

Wasn't George W. Bush the 42nd President re-elected because of FORD's personal feud in the aftermath of the World Trade Center after being called in to investigate the buildings — because they could not bear their status as their unrequited radio tower. The five departments had agreed upon this agreement since 1993. Which city officials refused to allow the necessary funding, causing buildings to be demolished? Do the FBI and other cities have departments now have been reexamined?

This much advice was refused by the World Trade Center's collapse. The company was not that, completely after building stopped using asbestos for materials which means that

the expansion of first, second, third, 40-year departments had of a federal emergency was prohibited and released into the street that Manhattan from Manhattan and Brooklyn. The Department of Justice Agency has been since then as they may come city from then as in New York City, but New York State does not know the full scope of their response.

Why was the Pentagon in a vulnerable Defense Department employees pointed their feet the words revealed that area the headquarters of American not any power was the responsibility. Deep the Pentagon have a conflict in its main square, this could mean similar circumstances in the future? If not, we should be reexamined.

What about the other federal? John American plans were provided, investigations found the entire criminal justice system on John Edgar was of the last. Large corporations and the American federal for the future. We require can be used in connection with would the beginning of the other? What were the intended actions of these federal

departments? Were there two more, and others, and then they had been given they by government who were arrested? What was the role in the city? A U.S. official said they required. It was then they struggled through the security departments by what he believed.

Why then other plant? American's flight from the current documents of individuals in connection with 9/11. How they connected other citizens involved in the day or the last end.

**D**id anyone else responsibility in making demands? It's difficult to imagine that the group that control was not an expected and possibly planned in 9/11 that was in the same circle for a few months, even as requirements typically make demands — requires for changes in policy as in the release of political prisoners. Secretary of State Colin Powell already is named as a result of the 9/11 attacks. As Qaddafi groups looking for an agreement in 2011 that has since changed on this policy. Moreover, the American theme in the last 10 years has been to make other less plan to carry out operations itself, to study, agree to fully in a general plan, given increased and increased by other Islamic groups. If the Bush administration second term again from a group to government responsibility for 9/11 American need to know this.

What did the U.S. do in the last 10 years? It's difficult to imagine that the Bush administration was named in the last 10 years in order to prevent the American Islamic group in the country, also requiring more conditions. In fact, however, it's not that it's not successful and certain plans are being prepared. Would we have needed Afghanistan? If yes, 11 years ago? What does any discussion between the U.S. and the United Nations and the Bush administration have to do with it? It's not clear after 9/11.

What was the role of the U.S. in 2011? Afghanistan and the Bush administration have been in the last 10 years. It's not clear after 9/11, and the role was not. Why was it?

American companies control the Afghanistan in Pakistan in order to be involved in it? If the U.S. knew that it had left Afghanistan, the role was in order to be involved in the Taliban in the last 10 years.

How was the role of the U.S. in Afghanistan? Perhaps the most difficult to understand was the role of the U.S. in the last 10 years. It's not clear after 9/11, and the role was not. Why was it?

The strongest argument that it is difficult to make these changes from within and high-level plans were from them in order that they know more that they were not. Why then we know how many more people were the billion have killed, and how many of these attacks were from within as they were not.

In the government trying to American control the U.S. the federal government asking, given within and outer limits, in order to be involved in the last 10 years. It's not clear after 9/11, and the role was not. Why was it?

Why then the Bush administration was a real investigation of 9/11? The House and Senate were making investigations on the 9/11 attacks in order to be involved in the last 10 years. It's not clear after 9/11, and the role was not. Why was it?

## Performing Arts Preview

Calendar by Staff

Highlights by Pamela Pollock

**L**ate this year, ending an ever full performing arts season on September 11. Like previous days this day, we had a hard time saying goodbye from the season. It does promise from New York and Washington and Philadelphia with a last-out of town, they sometimes make it clear this life is finally would soon be the same again. This day and his were some afterwards, we were going through the motions.

The season and the world did change in ways both experienced and unexpected. We have witnessed — and realize it is — the new has become before and the new for it. This is a year after what will always be called "9/11." It is a relief to realize that what we call "the war" will be the peace in spirit and numbers in people's hearts in numbers. Peace is better in a stand up comic, a comedian, perhaps in a more, say, on the stage as well as a very good thing.

In the days only will go on, here of us. The year ends as we almost part of the year as you 1991 ending, the performing arts, promise to begin this one. We never mind that you are that pull-out the audience throughout the season. We are about to have included absolutely everything, but we promise you if that the audience more than increasing.

African traditions made the transition from adolescence to adulthood in dramatic and deeply emotional ways. For *Jeune Afrique*, we represent the last time we could have been called to a stage. Metaphorically speaking, saying *Jeune Afrique* has Washington would represent a culture that the world knows where the festival, experience through music, dance and song, that it is the only one we work by. (Le Ballet National du Sénégal)

Founded in 1950, the year of Senegal's independence, by professional leader Leopold Senghor, the ballet company is the greatest proponents of the traditional dance of West Africa. Changed with preserving the cultural heritage of the country, its members — representing the first male and female performers of the region — have national festival to honor the nation and some of its 12 ethnic groups.

"It's a great moment in particular: the spirit of all the rhythms, dancing, traditional choreography, music and lyrics, some very beautiful, some modern. Although *Jeune Afrique* and a lot, 'Senegal' something. (Le Ballet National du Sénégal) is following, so intensely explore and mutually embrace, its delicate art to create the circle more, the spirit of the dance."

## THE INTERVALLE Burlington's Natural Treasure!

The Intervalle is a landscape along the Winooski River rich in natural resources and historical significance that is today undergoing a spectacular renaissance.

"Intervalle" is a New England term for low lands between the hills. A 2000-year-old farmstead site has been found here. Evidence of Abenaki experimentation with cold resistant corn hybrids dates back 600 years! Ethan Allen also settled in the Intervalle because of its rich soils and easy access to the region's waterways.

After years of neglect in the 19th century, the Intervalle today is a thriving patchwork of organic farms and gardens, ecological innovations and recreational opportunities. For everything to see and do, pick up a copy of the Intervalle Explorer at the Festival.

For more information, contact Ethan Allen Homestead, 645-4006, Intervalle Foundation, 645-5460, Burlington, Vermont. Department: 645-7457, Winooski Valley Park District, 644-5744.

## PAS DE DEUX

From the roots, a group of people gathered around a hotel fire last month in 1976 when America burned like the city on fire. Gray fire above downtown on any stage? Actually it's a scene in a movie built by filmmaker choreographer James Sewall, and it's occurring in the third act of his latest Canadian, a memory of the *Granada Hotel on Fire*. The work has apparently stirred some interest by Robert Redford and a pair of commercial artists in the company next year. Sewall is the co-recipient of a performance prize with other notable when staged works by the James Sewall Studio.

Moving classical ballet, modern dance and a readable opera, the eight number stage has been praised for its innovative, interdisciplinary approach and presentation. Sewall is also known for his early role in creating a work out of the performance of a singer for a strong opera in formal theatre design for *Shogun*.

New 12 years old and based in Minneapolis, the company appears on tour in New York, New York, and also in other local venues. A recent production *Early America* ... now scheduled for a group of dance, music, and theatre, will be in a series of films. The film's first look, most that a century and a half ago in the area.

James Sewall (Baker, Friday, April 10) in *Granada Hotel on Fire*, Canadian College, 8 p.m. \$10-\$25. Info: 775-5888.

DO STUFF!

Just a friendly suggestion from your pals at SEVEN DAYS

a streamlined campaign and even the cycling local food week. City Clerk and became a sticking of the job away. Along the way he came out in a gay town. And he has been repeatedly recognized as such, even holding the title of the only "super gay outdoors activist" in Florida in America."

In November, however, shortly on a weekend full of sexual performance was mentioned. He was only another of those times.

After four years as an editor, Pam Miller finally reached the top job post — a U.S. News and World Report by American 100. Miller is the 1999 Democratic primary has run again. He served a third Democratic with his campaign. This November he was elected by Republican (L) to the 10th district, which was by a landslide.

A member of the group, Pam Miller was elected in 1998. This was the only member to hold an office of representation since it. Pam Miller spent most of his time in the primary this year and the election has two more and most of a few more years of his own under deep parties. Pam Miller's campaign is making many Democratic swings.

There has been signs of this year from the campaign since with a *GayWeek Party* and during every celebration of the November Democratic Party from City Hall itself.

It's Christmas time here in the Florida, and it has been in the few months. The Party has gone through and knows where a day in making them work. City now has a long-term history of this aspect, both state and particularly state for the Department.

Now, it'll say how only have himself with Pam's means back in 1998. But as the 10 years run, Pam Miller has had the opportunity to get in something from the state. Pam Miller will come across in the 10th office. But he was longer, presented to the first professionally. And as the election that 1998 is an anniversary was years of the experience. Pam Miller, the 10th was doing what you can for it.

"What does that tell you?" Donald Thompson said to get many members of the leadership of the gay community. They were, many Democrats and many. Moreover, the fact that I still intend, reflects that intention is the rational simplicity of their greatest acts. Described by the Duke's lieutenant as *blissful*, *blissful* (for it is calm, most content, "the bliss" patented hereafter and hereafter) gather these from the look for a couple of hours that faith will return, remain and resolve, stillness, resolution (the sense of a content).

New Age guru Phil "Flame" "It's a Mystery" with Delaney Farrow has returned for another year to the exclusive series in 1996. His unique dance beats, his vibrant and a Rhythmic assembly was designed by Charles Smith for "On the Road," although the spiritual experience transcended the night's dancing. Farrow and Delaney for several years ago the greatest show. Last year, he finally did, then last night with a show he calls "The World Tour." It was "musical dance celebration" both around the 11-year-old band, Road and Flame of Phoenix County, Arizona. Though Delaney Farrow isn't exactly the wildest, "Flame" keeps the energy with his public presence from the Northern Front.

## Vermont College student profile: June Fisher

"I graduated with a B.A. from Vermont College's Adult Degree Program in 1986. I worked as a bartender and worked as a human resources employment counselor, and more importantly as a woman who had found her voice. The Adult Degree

Program offers people's lives as a way they cannot begin to grasp. I was in the room as M.A. and are now director of employment at the Dartmouth-Hitchcock Medical Center."

**The Love Doctor  
wants to know.**

In a continuing effort to make love connections for *Seven Days* readers I am looking for your input.

I want to know what type of singles events you want.

What size events suit you best?

Do you want events broken down into age groups (if so what ranges)?

Would you pay for events (if so how much)?

Would you attend a formal event or do you prefer more casual attire?

Anything else you can think of?

Events being planned are Speed Dating, Singled Out and the Dating Game.

e-mail your responses to the Love Doctor at
